

From the Commission of Intercultural Ministries

Afghan Resettlement Update (10/26/2021)

New Afghan Refugees are arriving almost daily in Sacramento. They have endured a long journey from Afghanistan to Sacramento, often including stops in another country before landing at a US military base where more processing took place. So, when our new neighbors finally arrive in their new hometown, they are anxious to get settled and restart their family, work, and community lives.

There are many ways for you and your congregation to help our new neighbors do this, no matter where in the Diocese you are located. Take a look at the newly revised Ways to Help flyer and choose the opportunity that works for you. The flyer reflects the current needs of our resettlement agency partners. Please post and distribute the flyer in your congregation.
